Dear Awards and Recognition Committee:

For me to say that Miss Rebecca Faith McQueen is a good person to work for would be a lie. The truth behind this is that she is the best person to EVER work for. She is by far one of the greatest people at Elon University and truly sees the best in each person that she has under her. I have had the pleasure of working with her for the past two years and my life has been greatly affected for the better. Admittedly, I have not done as well as I would have hoped in my academics throughout college. The time came for me to buckle down and concentrate on my grades, but with a job as a Resident Assistant (and now Senior Resident Assistant) I had no clue how I was going to accomplish this. Taking this job was a blessing in disguise because I saw a steady rise in my grades and my overall academic career. I am now doing much better in classes because of the push that I got from Becca and her unrelenting concern for my success.

One of the greatest feelings in the world came when I was driving home for Christmas and I got a call from her. I knew it was about my grades and I also knew that the semester was not too kind to me. Anyone in my shoes would have expected the worst as I did. In actuality, she was calling to congratulate me on my academic success for the semester. I was in shock the whole way driving home, but when I truly thought about it, there was no way in the world that I would not have achieved this without Becca's caring personality and her concern for her staff. I am forever grateful to her for seeing me through this tough time and I am sure that other staff members would say no less of her. I speak for everyone when I say that Rebecca Faith McQueen is a most wonderful person and is a pleasure to have worked with on a daily basis.

Jarred A. Adams

*Danieley Center – Senior Resident Assistant*
