Awards and Recognitions Committee**

To Whom It May Concern:

I would like to recommend that the credentials of Mr. Glenn Gibeson be given top consideration for the SEAHO Humanitarian Recognition Award.

Glenn has been an employee of Residential Life in the Division of Student Life and Academic Services since he was an undergraduate student and is now resident manager of the Edward Gay Apartments.

He is bright, articulate, organized and dependable. His ability to organize during times of crisis and solve problems is exceptional when compared to other professional peers. Mr. Gibeson has demonstrated excellent knowledge as an employee and has the necessary "people skills" in student development to succeed during challenging times.

Glenn's skills were put to the test in a recent tragic situation. We were most impressed by determination and grace he showed well above and beyond the call of duty.

Thank you for the opportunity to nominate him for this prestigious award.

Sincerely,

F. Neil Mathews, Ph.D.
Vice Chancellor for Student Life & Academic Services
